

NYCFM Mission

The mission of the New York City Fire Museum is to collect, preserve and present the history and cultural heritage of the fire service of New York and to provide fire prevention and safety education to the public, especially children.

The New York City Fire Museum attracts 40,000 visitors a year from all over America and almost every country in the world. Retired FDNY firefighters proudly volunteer to relate stories of New York City's "Bravest" and with the help of the Museum's stunning collection, tell how they earned that distinction.

A vital component of the Museum is its Fire Safety Education Program. Working with the FDNY Fire Safety Education Unit, groups of children participate in a 3-step program comprised of an age-appropriate video and lesson from an FDNY Fire Safety Educator, a history tour, and a facilitated experience of crawling out from under a cloud of artificial smoke to learn how to save themselves and their loved ones in case of a fire. Approximately 10,000 school children per year participate in this program.
